-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 19 July 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments, see IV, filed 7/19/07, with respect to claims 1 and 19 have been fully considered and are persuasive. The 35 USC 102 (e) rejection of Parham et al. (US 6,879,564) has been withdrawn.
2. Applicant's arguments, see III, filed 7/19/07, with respect to claims 10-18 have been fully considered and are not persuasive. The 35 USC 112 first paragraph rejection stills stand. The applicant cannot point to last step of figure 4 as the teaching the intermediate node as root node. Node E can connect to the start node and destination node, but the applicant does not teach the method of node E being the root node of tree to determine the path. Figure 4 has a series of steps (401-409) to determine the path to connect the start node to the destination node. Step 409 is the final the result, not the starting point. Also, the first step 401 specifically teaches the two trees with two different nodes as the root node (start and destination nodes) for each tree.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:  

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
4. Claims 10-18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which

Art Unit: 2616

was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Claim 10 and its dependents teach a method that has an intermediate node being set as a root for one tree with paths leading to start node and to the destination node. The specification only describes two trees with two different root nodes, so the applicant fails to teach how claims 10-18 are enabled. Node E can connect to the start node and destination node, but the applicant does not teach the method of node E being the root node of tree to determine the path. Figure 4 has a series of steps (401-409) to determine the path to connect the start node to the destination node. Step 409 is the final the result, not the starting point. Also, the first step 401 specifically teaches the two trees with two different nodes as the root node (start and destination nodes) for each tree.

***Allowable Subject Matter***

5. Claims 1-9, and 19 are allowed.

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2616

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
